Cotton As A World Factor.

The United States' record-breaking crop of 12,162,000 bales in 1904 will serve to draw attention to cotton as a social and economic factor in the world's development, and to show the important part which it plays in human society. Congress in 1793 placed a duty of three cents a pound on cotton, never dreaming that it would one day become the most important of the country's exports. When, in 1794, John Jay was in England to frame the treaty under which American commerce got its first real start, he did not know that cotton was exported from his country or ever would be exported.

The 155,000 bales of cotton produced by the United States in 1800 had grown to 4,800,000 in 1860. In the words of Hammond, of South Carolina, cotton had become king among United States products by that time. The year 1898 saw the 11,000,000 mark in production passed for the first time. It was never surpassed afterward, except in 1899, till 1904, when the output was 12,162,000 bales. In 1903 the farm value of the cotton crop and its by-products was in the neighborhood of \$700,000,000. In 1904, owing to the reduced price, the value did not pass beyond that mark. In each year, however, it outranked all the other products of the soil in the amount of money which it brought to the grower, except corn. Three-fourths of all the cotton grown in the world is produced in the United States. Twenty per cent. of the entire American crop was manufactured in American mills in 1860. This proportion, increasing faster than the production, had grown to 37 per cent. in 1904. The South, which manufactured only 80,000 bales of cotton in 1890, as compared with 777,000 bales in the North, only 221,000 as compared with the North's 1,574,000 in 1880, and only 545,000 to the North's 1,780,000 in 1890, was even with the North in 1903 and 1904, each section manufacturing slightly less than 2,000,000 bales.

Clean House To-day.

Don't wait till to-morrow, but clean house to-day, with Dr. Caldwell's (laxative) Syrup Pepsin. Of course we mean your house of flesh and bone—your body. This is the best house you own, and should get the most care. Yet most people neglect it in a dreadful manner. As a result, stomach, liver, and bowels soon get out of order, and cause great pain, distress and dangerous internal diseases. The only safe, sure cure, is Dr. Caldwell's Syrup Pepsin. It clears out all causes of sickness, cures constipation and indigestion, cleans house and makes you well. Try it. Sold by G. L. Penny at 50c and \$1. Money back if it fails.

Judge Ferdinand Hess, a member of the Missouri Legislature, went to his stable at Belmont, Mo., and was met by a negro armed with a shotgun who demanded money. The negro forced Judge Hess and Mrs. Hess to get in a buggy and drive to a cabin, where Mrs. Hess was held prisoner while her husband was ordered to go out and raise \$600 for his captor. Judge Hess went to Columbus, Ky., just across the river, where a posse was raised. The negro left his house and fled to a swamp, where he was captured. He was taken to Belmont where a mob took him away from the officers and hanged him in the public square.

Cleaned Out.

When a deep cellar becomes filled with heavy, poisonous air, it is never safe to go into it until it has been cleaned out. When your body has been poisoned with the foul residues of undigested food, it is just as necessary to clean it out. To do this pleasantly and safely take Dr. Caldwell's (laxative) Syrup Pepsin. It is a pure, scientific preparation which has no equal in the cure of constipation, headache, biliousness and stomach trouble. Sold by G. L. Penny at 50c and \$1. Money back if it fails.

Official reports show that during last year, life insurance policies to the amount of \$26,298,083 were written in Kentucky on which \$3,641,538.29 in premiums were paid. The losses paid in the State during the year amounted to \$1,619,039.98. Showing that the insurance companies collected in this State over two million dollars more than they paid out.

Let Everybody Work

And the world would be more happy and contented. Just consider how much pain and trouble results in your body, when your liver or stomach stop working. Happily, you can soon set them to work again, cure your pains, and restore yourself to health and contentment, with Dr. Caldwell's (laxative) Syrup Pepsin. Try it. Sold by G. L. Penny at 50c and \$1. Money back if it fails.

Maj. John D. Harris, one of the most prominent men in Madison county and widely known throughout the State, is dead. Since the death of his wife two years ago he had steadily declined and he met his end with the composure of a man whose duty has been done and who fears not to meet his Creator. Maj. Harris was born in December 1829, and enjoyed a long and illustrious career. He gave his attention in early life to farming and amassed a considerable fortune, owning at the time of his death a handsome estate of 2,500 acres of Bluegrass land. Some 20 years ago he went into politics and in 1885 was elected State Senator. Four years later, in 1889, he made his memorable race for governor against Gen. Simon Bolivar Buckner and was defeated. He is survived by two children, Mrs. Cassius M. Clay, of Bourbon county, and Mrs. Samuel H. Stone, of Louisville. He was generous and liberal with his means, public spirited and progressive and of the strictest honor and integrity.

Why Suffer From Rheumatism?

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yum Yum, Tennessee, U. S. A., writes, "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by Lyne Bros., Crab Orchard Ky.

A Boston preacher says he will not read the books in Carnegie's library because the money for them was got from the sweat and toil of thousands in mines and furnaces. The Interior Journal.

E. C. WALTON.

WHILE in Frankfort Saturday we had the pleasure of surveying our brother's new journalistic field as well as forming many new acquaintances. It is not as bad a looking town as we tried in our last issue to make our readers believe, but on the contrary has some pretty streets and many handsome homes. The residences are more modern than the business houses, but we believe both will be improved now that a million dollar capitol is a certainty. We did not visit the Hunt site, on which the capitol will be erected, but could see it from our car window and we agree with the majority of the last General Assembly that it is the place it should be built. My brother is already a "rooster" for Frankfort and he confidently believes there is a great future for the capital city. His new purchase is the Frankfort Journal, a morning publication, which has heretofore been owned by a stock company. A weekly is also published and the circulation of the two runs up into the thousands. He, Mr. Walton, is assisted by Mr. Shelton M. Saufley, formerly of this place, but later managing editor of the Lexington Morning Democrat, Mr. Ed O. Leigh, Gov. Beckham's private secretary, Mrs. Elwanger, society editor, and Mr. Ben Watt and Adjutant General Percy Haley. The work of the latter two gentlemen is one of love, but their efforts are as earnest as if they drew handsome salaries. The treatment accorded Mr. Walton is the kindest imaginable and we were impressed during our sojourn in the "city under the hill" that Frankfort's people are the cleverest we know of and that they are anxious for the good, live democratic paper our brother will give them when he gets things down to a better running condition. We called on Gov. Beckham and the rest of the State officers and found them all busy but not too rushed to make us feel welcome and glad we called. We hunted for that terrible machine that Senator Blackburn talks and dreams about but were unable to locate it. However, a friend told us that he thought the machine that the Senator wants to smash had worn itself out helping the senior Senator into office.

TEN Ohio bankers are in the penitentiary and 18 are under indictment. There is not a single Kentucky banker in either of the State's penitentiaries, to the discredit of the courts he said. But then men who steal by the thousands are most always acquitted. It's the poor devil who takes a dollar or so that suffers the penalties for theft.

THE body of Sir Francis Douglas, who, 40 years ago fell 4,000 feet down a Swiss glacier, has been recovered. He was dead when found.—Glasgow Times. Thanks for this useful bit of information. The good people of this section were of the opinion that Douglas was still alive but a sufferer from appendicitis.

Go to Ed. Your language explains why you never had kiss-blister on your lips.—Harrodsburg Democrat. Go where? Harrodsburg or another place beginning with the same letter? Having been to Brer Brown's town we believe we will take chances on the other.

Judge Hargis did not appear in person as a member at the meeting of the State Central Committee at Frankfort Wednesday, though urgently invited to do so by the chairman and members of the committee.—Somerset Journal. To the judge's credit be it said.

In an interview at Nashville, Senator E. W. Carmack came out emphatically in favor of a general State primary next year for the selection of a candidate for Senator. Former Gov. "Bob" Taylor is also in favor of a primary, and as Carmack is willing there seems now no doubt it will be held, provided the State organization agrees to foot the bill.

FOR SALE!

McKINNEY ROLLER MILLS.

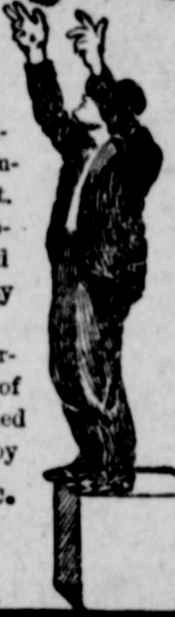

I offer for sale my mill and residence in McKinney, Ky. Mill has four capacity of 50 barrels and meal 160 bushels per day. Mill is well equipped with modern machinery in good repair. Has storage capacity of 5,000 bushels of wheat; also large corn bins and cribs. Wagon scales operated from office, coal bins and ice house. All under roof. Never falling water in mill lot. Mill is within 100 feet of Cincinnati Southern R. R. track and has private siding. The location is good for the following reasons: McKinney is nearest market to many of the largest wheat and corn growers in Lincoln county, large territory furnishing custom grinding. The feed and coal business in connection with mill pays well. No trouble to market all products from mill. Residence is a two-story, six room frame, with cistern on back porch. Milk house at back door cemented; all comparatively new. Large barn, buggy house in mill lot. On account of my failing eyesight and health generally, my physicians have advised me to quit the milling business. For further particulars call on or address Dr. Edw. Alcorn, Hustonville, Ky., or W. B. McKinney, Stanford, Ky.
MISS JENNIE McKINNEY, McKinney, Ky., Administrator.

MASTIC MIXED PAINT

Can't Be Touched

for painting houses. The reason's plain. Mastic is the purest, therefore the most durable and economical. There is a whole string of "other fellows" claiming "just as good as Mastic" but they don't prove it. Maybe they can't. The analysis of Mastic is published. It's made of pure lead, zinc and linseed oil—the most durable kind of paint—and its purity is therefore unquestioned.

As purity means durability, the splendid wearing qualities of Mastic have given it the title of "The Kind That Lasts," and this title is backed up by our absolute guarantee. Mastic is made by PEASLEE-GAULBERT CO., Inc. LOUISVILLE, KENTUCKY and we heartily recommend it to your trade.

FIRE AT KINGSVILLE.—At an early hour this morning W. L. McCarty's large store at Kingsville was found to be on fire and the blaze had gained such headway that it was unable to extinguish it. The flames went from the store to the residence of Mr. McCarty and it too burned. Only the furniture in the home was saved; little or nothing was gotten out of the store. The fire started in the back part of the store, but its origin is a mystery. Mr. McCarty carried an immense stock of goods and his loss is very large. He was in Stanford when he heard of his misfortune. We were unable to get the amount of insurance carried, but it is known to be considerable.

THOSE of our people who did not attend the recital at Walton's Opera House Friday evening given by members of Miss Ellen Ballou's music class, assisted by the Central University Glee Club, missed a most enjoyable entertainment. The first number, Rhapsodie, No. 12, rendered by Misses Allie Huffman and Virginia Bourne, elicited much applause. The vocal solo by Miss Lillie Mae Leavell showed that young lady the possessor of a rich, cultivated voice. She appeared the second time during the evening and again delighted her hearers. Oscar Letcher, who is a good comedian, made a capital Negro and "brought down the house" with funny jokes and sayings. Miss Mary McRoberts gave a piano solo that did credit alike to herself and her instructor. Mrs. Walter Denham, of Boyle, who is especially good in Negro dialect, read several times and her efforts were always well received. Messrs. C. F. Clark and T. F. Andrews, of the Glee Club, favored the audience with solos, while the quartette singing of the club was a feature of the evening. Miss Mary Higgins' piano number was well executed and highly enjoyed. Stanford's little whistling wonder, Miss Berta Jean Penny, who always does well, gave L'Ardita most beautifully. Misses Huffman and Bourne each rendered piano solos, which brought forth much favorable comment as well as deafening applause. The Glee Club also furnished splendid string music and in many ways added to the pleasure of the evening. The club is composed of Messrs. T. F. Andrews, Herbert Spencer, Woods Dudley, Frank Flaig, C. F. Clark, P. B. Moss and Oscar Letcher, all pleasant young gentlemen, good musicians and clever in every way.
